Moved from someone else

YOU — Bloomie

4

ACTIVITY

1

Bloomie conversation flow

SEQUENCE

1

Bloomie interaction (user ↔ chatbot)

STATE

1

Bloomie conversation states

OBJECT

1

Bloomie inference result

Jahzara — Frontend / UI

16

ACTIVITY

7

Sign up

Log in

Log cycle

Track cycle / view predictions

Browse resources

Complete onboarding survey

View calendar & cycle overlay

SEQUENCE

5

Sign up

Log in

Browse resources

Complete onboarding survey

View calendar + log a day

OBJECT

4

Dashboard view

Cycle tracking view

Resource display

Onboarding survey state

Moved out: Search clinics, view notifications, fertility, PDF report, settings, profile → split to Samantha & Reneece since they own those backend features

Samantha — Backend

16

ACTIVITY

4

Save / retrieve Firestore data

Consent request flow (teen → guardian → approve/deny)

Manage user preferences & settings

Send daily reminders (scheduled job)

SEQUENCE

7

Sign up / register

Log in

Log cycle data

Manage symptoms

Save & retrieve data

Consent request + guardian response

FCM token register / unregister

OBJECT

5

User + cycle entry

Notification instance

User history snapshot

Consent document

Preferences object

Moved out: admin, token expiry job, view history sequence, prediction output object → to Reneece (system-level)

Reneece — Core system / ML

16

ACTIVITY

6

Manage cycle data

Generate predictions

Send notifications (system level)

Manage clinics

Manage educational content

Admin — manage users & content

SEQUENCE

5

Log cycle data

Generate prediction

Send notification

View history

Search clinics

OBJECT

5

Prediction output

Cycle engine state

ML inference result

Clinic search results

PDF report object

Moved in from Samantha: admin activity, view history sequence. Moved in from Jahzara: search clinics sequence, clinic search results object, PDF report object
