

MENOPAUSE SUPPORT IN JAMAICA

Menopause affects many women across Jamaica. ❤️

According to information referenced by the Ministry of Health and Wellness:

- Approximately 130,000 Jamaican women are menopausal
- About 76,200 are experiencing perimenopause
- Around 75,000 are postmenopausal

Most women experience menopause between ages 45 and 55, after 12 consecutive months without a menstrual period.

The Ministry of Health and Wellness has recognized that menopause symptoms can affect daily life, wellbeing, and mental health, and is working to improve public education and access to care.

When Should You Seek Support? 🌸

If you experience symptoms such as:

- Irregular periods
- Hot flashes
- Anxiety or mood changes
- Difficulty sleeping

You are encouraged to:

- Visit your nearest health centre
- Speak with a healthcare provider
- Seek guidance on symptom management

Mental Health Support 📞

Support is available through the Ministry of Health and Wellness mental health hotline:

- 📞 888-NEW-LIFE (888-639-5433)

This service provides confidential counselling and support for individuals experiencing emotional or psychological distress.

National Support Efforts

Jamaica's national approach to menopause care includes:

- Public education initiatives
- Support through primary healthcare providers
- Review and improvement of medication access
- These efforts aim to help women better understand menopause and access appropriate care when needed.

Bloom provides educational guidance only. Always consult with a qualified healthcare professional for personalized medical advice.
